

Exhibit A

1. Snow removal shall be charged at a rate of \$4.00 a minute on weekdays and \$6.00 a minute on weekends for the Bobcat snow blower and the Plow truck: AND \$9.00 per minute for the John Deere Blower weekdays and weekends.
2. A minimum time of 10 minutes shall be assessed for any driveway snow removal done with the Plow truck, Bobcat or John Deere Blower.
3. Time shall start when the operator turns on the snow blower and drives onto the lot and shall end, when they drive off the lot. Any off -subdivision lots time shall start when the operator leaves the Island Park Village subdivision and end when the operator returns to the Island Park Village subdivision.
4. A minimum of 24 hours' notice is required to facilitate snow removal. Occasionally, we may not be able to remove the snow without 24 hours' notice.
5. The Bobcat snow blower is our primary piece of equipment that will be used to clear driveways. Occasionally, there will be too much accumulated snow for the bobcat snow blower to handle efficiently because the property owner has let the snow pile up or the roof has slid onto areas which require removal. In that case the John Deere snow blower will be used and the property owner will be billed at the rate of \$9.00 per minute or \$90.00 minimum. Rates are subject to change year to year.
6. Occasionally, these snow blowers break down and require repair. Some times this can be for an extended amount of time. This requires us to use a different piece of equipment, as we make every effort to meet your request for snow removal. Snow removal rates will vary depending on the piece of equipment used to complete the snow removal.
